## Lawn Care Calendar

### Schedule Your Lawn Aeration!!!

One of the most beneficial things you can do for your lawn is core aeration. Core aeration is a simple process of removing small cores of soil and grass to allow air, water, and nutrients into the root zones of your lawn. The small plug is deposited on the top of the lawn where it is quickly broken down and returns valuable nutrients to the soil. The small holes left behind allow sufficient oxygen to reach the grass roots and ease soil compaction which also allows better infiltration of water and fertilizer to the root zone.

Core aeration also helps to break down thatch, a spongy layer of organic substance made up of leaves, grass roots and stems, rhizomes, and other similar materials, that builds up in your lawn. A thatch layer of 1/2" is enough to impede oxygen and nutrients from reaching the grass roots.

Not only will you have a healthier and more vigorous lawn when you aerate, you will also use less water and fertilizer. Take advantage of our \$40 Spring aeration special (up to 6000 ft<sup>2</sup>) and we'll properly aerate your lawn. Please call and schedule today!

Go to [www.LawnCo.Net](http://www.LawnCo.Net) to see read more about this program.

### Boise Flower and Garden Show - March 26 - 28

The Centre on the Grove will spring to life with everything you need to make your garden beautiful at the 14th annual Boise Flower & Garden Show, March 26-28, 2010. Shop for the latest in landscape design, garden art and decor, yard furniture, plants, decks, greenhouse, and more. You will also enjoy spectacular display gardens; educational and fun gardening seminars; orchid and bonsai displays; a silent auction of beautiful and unique container gardens and much, much more!

Look for our booth at the show and stop by for information and special offers.

Go to [www.GardenShowBoise.Com](http://www.GardenShowBoise.Com) for more information about the show.

## Plant Health Care

### Sign Up for Lawn Co Plant Health Care Program

Our Plant Health Care Program early signup and pre-payment letters are out to all 2009 customers. Look for **pre-payment discounts** when you pre-pay for 2010. If you haven't seen your letter yet or you have any questions, then call us at (208) 323-0234. If you want to sign up for the program and get a discount on services then call for an estimate.

Our Plant Health Care program includes:

- **Dormant Oil** – We apply a highly refined horticultural oil to protect trees and shrubs from overwintering pests.
- **Early Summer Insect and Mite Spray** - We inspect and treat insects and pests that target your trees and shrubs in early summer.
- **Late Summer Insect and Mite Spray** – This secondary spray is specifically designed to target those pests and insects that thrive in the later season when temperatures begin to peak.
- **Fall Deep Root Feeding** – At the end of the growing season your trees and plants need a balanced fertilizer and nutrient injection deep into the root system to promote health and vigor throughout the winter months.

Go to [www.LawnCo.Net](http://www.LawnCo.Net) to see read more about this program.
